CARING FOR OUR COMMUNITY LIKE FAMILY

High-Risk Screening & Genetics (HRSG) Clinic

Medical Arts Center
4033 Talbot Rd S Ste 470
Renton WA 98055

Who we are

Lindsay Canning DNP, ARNP

Hayley Cain McCaughan MS, CGC

Thia Riewe DNP, ARNP

GSF: Cora Weimer-Hodes MS, CGC

GSF: Jerri Cheung MS, CGC

What are we doing

- **Establish care and follow ups patients who at high-risk for breast cancer**
- **Monitoring lung screening program**
- **Genetic counseling and testing**
- **Part of Breast Cancer Tumor Board**
- **Monitoring Incidental Finding Program**

When to refer patient to the HRSG clinic

- **Personal or family history of:**
 - Breast cancer before age 50
 - Colon cancer before age 50
 - Endometrial cancer before age 50
 - Ovarian cancer at any age
 - Metastatic prostate cancer at any age
 - Pancreatic cancer at any age
- **Patient does not NEED to meet criteria**
 - Adoption, unknown family history, anxious or curious about genetic risk
 - Self pay testing is \$250

How to place a referral

- REF626 - AMB REFERRAL TO HIGH-RISK GENETICS
 - Adult High-Risk [VMG]
 - NOT REF26- Prenatal/MFM, UW, SCH
- Please include types of cancer and ages of diagnosis, if possible
- We will triage if patient needs:
 - Genetic counseling/testing
 - High risk breast cancer screening and/or tamoxifen criteria

Cancer IQ screening at the Breast Center

- **Cancer IQ** = a patient portal that allows us to assess pts' personal risk of developing certain types of cancer and get personalized recommendations for prevention and screening.
- **Evaluates for both:**
 - High risk screening (>20% Tyrer Cuzick)
 - Genetic testing (NCCN)
- **Patients are given this screening questionnaire at their mammogram**
- **ALSO screened via PenRad and TC% is listed on mammogram report**
