

# General & Specialty Surgery Clinic and Colorectal Surgery Clinic

## Facts for Referring Providers

### What services are offered by the General & Specialty Surgery Clinic?

The General & Specialty Surgery Clinic is a full-service group providing care for the full spectrum of general surgery. We have an experienced group of providers, including five board-certified surgeons, including one fellowship-trained endocrine surgeon, and four physician assistants. Our providers are experienced in robotic surgery and offer your patients up-to-date minimally invasive techniques.

We provide a wide range of services and treat the full spectrum of general surgical disease, including:

- Adrenal neoplasm
- Breast disease (benign and malignant)
- Gallbladder\*
- GERD and hiatal hernia\*
- Hernias (ventral, inguinal, and lumbar )\*
- Intestinal disease (benign and malignant)\*
- Minimally invasive lung biopsy
- Port-a-cath insertion
- Skin and soft tissue neoplasm
- Splenectomy\*
- Temporal artery, sural nerve, and muscle biopsies
- Thyroid and parathyroid disease (benign and malignant) including thyroid nodule biopsy

### What services are offered by the Colorectal Surgery Clinic?

The Colorectal Surgery Clinic employs two fellowship-trained colorectal surgeons and one physician assistant who provide a wide variety of services for the full range of colorectal care, including:

- Benign anorectal disease (hemorrhoids, fistulas, and fissures)
- Colorectal cancer\*
- Fecal incontinence
- Inflammatory bowel disease\*
- Minimally invasive surgery
- Rectal prolapse\*
- Screening colonoscopy

## What are the features of surgical services at Valley Medical Center?

All our surgeons are experienced in minimally-invasive surgery, and we offer our patients robotic or laparoscopic operations when feasible. VMC has the newest generation surgical robot, which allows us greater freedom in treating surgical disease on a minimally-invasive platform. Our goal is always faster recovery and less pain for our patients.

## How do I consult with a surgeon about a potential referral?

We are happy to discuss potential referrals and patient workups. Please call our offices and choose option 5 for the provider line. Our staff will put you in contact with one of our surgeons.
