# RAYS OF POSSIBILITY

## A Message from Valley's CEO & Board Leadership

Dear Friends and Supporters of Valley,

As we reflect on this past year, we are grateful for the people and partnerships that make Valley such an extraordinary part of our community.

Through a period of significant change, our team has demonstrated remarkable strength, resolve, and commitment. Their dedication is the heart of Valley and a powerful reminder of what's possible when people come together to care for each other.

We'd like to extend deep appreciation to our Board of Trustees, whose leadership, stewardship, and years of service have helped shape Valley's legacy. As we prepare for our transition from UW Medicine, and a new chapter of independence, we recognize and honor their lasting contributions.

To our donors, community members, and supporters, thank you for believing in Valley and standing alongside us. Your trust and generosity and the community's resounding support have helped create a strong foundation for what lies ahead.

Our path continues to evolve, and we see many rays of possibility on the horizon to strengthen and expand care, invest in our people, and build a healthier future for those who call South King County home.

With heartfelt gratitude,

**Jeannine Erickson Grinnell**
Chief Executive Officer
Superintendent of
King County PHD No. 1

**Larry Rude**

# From Listening to Action: Turning Community Support into Better Access to Care

Our 2026 Community Health Needs Assessment (CHNA) is how we listen to our neighbors and understand where care is needed most across our hospital district. Our three-year Implementation Strategy focuses on three priorities: expanding access to care; reducing the impact of chronic conditions such as cancer, heart disease and diabetes; and improving access to mental and behavioral health services.

Making meaningful progress on these priorities takes more than listening. It takes action, investment and strong community partnerships. Thanks to the community's support of Hospital Prop 1, Valley has an important responsibility to turn these priorities into progress. This investment in our community-owned public hospital will help strengthen the foundation of local healthcare and support our ability to expand access to the services our growing region needs. That work is already underway, with efforts to expand access to primary, urgent, emergency and specialty care for those who call South King County home.

**A stronger hospital = a stronger community.** Through new partnerships, expanded services and a continued commitment to prevention and early intervention, we are working to build a healthier, stronger, more connected community…together.

# Welcome to The Oasis

For nearly a decade, the 2nd Floor fountain at the heart of our hospital sat dry. In June, it bloomed into The Oasis: a living garden with close to 50 planters of flowers and foliage in every size and color. It also includes a new gabion which will soon be filled with Thank a Caregiver glass floats, each one donated to honor someone special who has made a lasting difference at Valley and in our community.

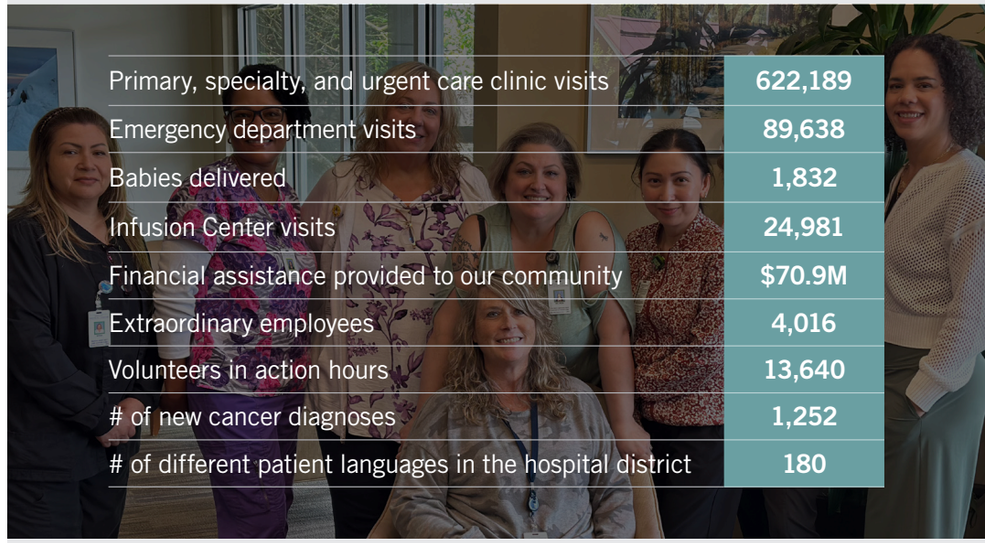

Patients, families, staff, volunteers, and providers come to pause and breathe, and to be reminded that healing is about more than medicine.

Thank you to Vantage Radiology, Renton Art & Glass, and our Thank a Caregiver donors for funding this project. Every vendor who helped bring it to life calls South King County home.

Be sure to stop by The Oasis next time you're on our main campus in Renton.

# OUR COMMUNITY IMPACT

| | |
|---|---|
| Primary, specialty, and urgent care clinic visits | 622,189 |
| Emergency department visits | 89,638 |
| Babies delivered | 1,832 |
| Infusion Center visits | 24,981 |
| Financial assistance provided to our community | $70.9M |
| Extraordinary employees | 4,016 |
| Volunteers in action hours | 13,640 |
| # of new cancer diagnoses | 1,252 |
| # of different patient languages in the hospital district | 180 |

# Financial Information

July 1, 2025 – June 30, 2026

## SUMMARY

**$1,003,679**
Total Operating Revenue
Includes all Philanthropy. 4.8% of Total Operating Revenue is an allocation from local property taxes.

**$36,108**
Total Nonoperating Income

**$1,017,440**
Total Operating Expenses

**$654,455,000 | 64%**
Direct Care Expenses

**$362,985,000 | 36%**
Indirect Expenses

## DONATION DETAILS

### How You Gave

**$89,914 | 2%** in support of Employee Recognition

**$30,580 | 1%** in support of Hope For Life

**$25,066 | 1%** in support of Valley's Greatest Needs

**$34,793 | 1%** in other donations

## DOLLARS IN ACTION Valley's Investment in the Community

Each year, Valley directly supports community members by providing items, services, and financial support. Low-income, Medicare, and Medicaid patients make up a significant share of the population for whom we provide care, and Valley also absorbed **$218M** in under compensated costs. Please visit the link below for a detailed breakdown.

# Cancer Center Phase 1B Opened August 2026!

Picture a morning in our new Cancer Center Phase 1B. A patient newly diagnosed with breast cancer sees three specialists in a single visit and leaves with a clear treatment plan…Down the hall, a patient and his loved ones gather with their entire care team to talk through what comes next…In the conference room, providers sit down together to review each patient's case and coordinate the care ahead.

Three months in, this is what our patients and their loved ones, and our staff are experiencing: connected care, under one roof. Five specialty clinics including Oncology & Hematology, Multidisciplinary, Acute Symptom Management, High Risk Screening & Genetics, and Supportive & Palliative Care Clinic, are now just steps apart. The clinics share 24 exam rooms and four consult rooms.

"Fatigue is the number one side effect for our patients receiving treatment," says Cancer Services Manager Kendra Hahn. "So, to have one place where they can receive treatment, see their provider, and have access to supportive care is absolutely amazing!"

Phase 1B was made possible entirely through philanthropic support from our community. Thank you to our generous donors and supporters for bringing hope closer to home.

**Watch the Cancer Center Phase 1B Ribbon Cutting Celebration held on Aug. 20, 2026.**

# COMPLETING OUR PROMISE

We've always said our new Cancer Center is more than a building. It's a promise, and we're closer than ever to keeping it. The final phases include Phase 1C (Café on the 3rd Floor) and Phase 2 (Radiation Oncology and Oncology Support Services on the 1st Floor) and will cost approximately $27 million to complete.

A generous $200,000 gift from Valley Girls & Guys jump-started Phase 2 fundraising, and we've already raised an additional $4.6 million toward completing Phase 2! Help us keep the momentum going. Learn more at **valleymed.org/cancercenter**.

# Giving Back to My Care Team

*"Dr. Arora and his team at Valley have been with me every step of my breast cancer treatment. They know me, they care about me, and they've become like family. So when my Faithful friends wanted to help, I said let's raise money for the new Cancer Center. It's our way of giving back to the people who take such good care of me."*

# BE PART OF WHAT'S NEXT

Every gift starts as a spark, a moment of possibility. At Valley, we've watched those sparks grow into rays of hope for a new patient, joy for a family, love from our volunteers, and heart in every caregiver. Each of those moments began with someone like you choosing to give. Your support helps our South King County community grow stronger. Help us spark what's next.

Visit **valleymed.org/vmccares** to learn more about areas in need of support and methods of giving or contact Margaret Russ, Director of Philanthropy & Volunteer Services, at 425.690.6775 or via email at **margaret_russ@valleymed.org**.
