

Anticoagulation Clinic

Important Information

You are taking a blood thinning medication that requires close monitoring. Ongoing blood tests are needed to determine the effectiveness of the medication and to prevent adverse effects.

Your pharmacist will work with you to determine the best dose for you and will communicate your blood levels and dosage changes to your physician(s). Blood tests are usually required monthly, or more frequently.

Below is the attendance policy for our clinic:

- Clinic visits are by appointment only. Walk-in patients will not be seen.
- If you need to change an appointment date or time, please call us as soon as possible so that we can reschedule your appointment and make the time available for others.
- **NO SHOW POLICY:** If you miss two appointments without notifying the Anticoagulation Clinic, your physician will be notified and you may be discharged from our clinic.
- Because we are a hospital-based clinic, you may be responsible for a copayment. We can either collect your co-payment from you at the time of your visit or bill it to you.
- If you have any billing questions, please call the VMC Patient Accounts Office at 425.690.3578 option 5.

We appreciate the opportunity to help you. If you have further questions, please feel free to discuss them with the Anticoagulation department.
