The Health Care Authority has (This change complies with Substitute Senate Bill 5317 passed autism screenings For Washington Apple Health clients with claims for children as recommended by autism screenings for young babies right here in our community!

Screenings will be Covered

Days of the week:
• Monday, April 11, 10:30 a.m. – 12 p.m.
• Tuesday, April 12, 10:30 a.m. – 12 p.m.
• Wednesday, April 13, 10:30 a.m. – 12 p.m.
• Thursday, April 14, 10:30 a.m. – 12 p.m.
• Friday, April 15, 10:30 a.m. – 12 p.m.

For all screenings:
• Registration is not necessary.
• Appointments are not made.
• Return the screening bubble to the receptionist for your child.
• A small toy will be given with your child’s screening.

Important:
If you suspect your child may have autism, please watch for these signs:
• May have trouble making eye contact or avoiding it.
• May have trouble understanding common gestures.
• May have trouble understanding other people’s emotions.
• May have trouble understanding the meaning of words.
• May have trouble understanding other people’s perspectives.
• May have trouble understanding other people’s intentions.
• May have trouble understanding other people’s emotions.

In Washington, every child (from birth to age 3) should be screened for autism, and services are available to help.

Do All Babies and Toddlers Need an Autistic Diagnosis?

Many children develop normally in some areas but have delays or difficulties in other areas. An autism screening can help identify delays or difficulties in social skills, communication, and behavior. If you are concerned about your child's development, please speak with your child's pediatrician. If your child has a delay or difficulty in any of these areas, they may be referred to a professional who can help.

Are you in Washington Apple Health? Your child's screening is being conducted as part of your child's routine health care. If you have questions or concerns about your child's screening, please contact your child's pediatrician.

We have adjustments for kids with disabilities. If your child has a disability, please contact your child's pediatrician to schedule a screening.
